

Reforming Taxes and Charges

Reforming Taxes and Charges

Establishing a Tax Reform Commission to lower taxes and make life more affordable.

.....

We will establish a Tax Reform Commission with the key objective of keeping more money in the pockets of hardworking South Australians and making our state the easiest place to do business in the nation.

South Australians are doing it tough in the cost-of-living crisis, which is also having a flow on affect for small and family businesses.

The current system of fees and charges is confusing, costly and does nothing to boost economic growth or help everyday South Australians.

In the 2022 Labor promised “no new taxes, no tax increases”, but what we have seen since then is an increase to water bills, a ‘tax grab’ on our GPs, and record revenue being brought in from fees and charges.

The Liberal Party is the only party that can be trusted to lower costs and taxes.

The State Charges and Tax Reform Commission would be established within the first 60 days of an elected Hurn Liberal Government, to deliver a practical long-term roadmap to reform South Australia’s tax, levy, fee and charge system.

Backing small businesses and lowering costs are bread and butter issues for the Liberal Party, and this is part of our commitment to that.

This is part of our plan for a more affordable South Australia.
