

# Securing Radiotherapy on the Limestone Coast

# Securing Radiotherapy on the Limestone Coast

Ensuring regional South Australians have access to quality healthcare closer to home.

.....

A new Liberal Government will provide the state funding necessary to ensure cancer sufferers in the Limestone Coast can receive the vital care they need.

We will also continue to call on the federal government to recommit funds from the Radiation Oncology Health Program for regional South Australia.

South Australia is the only state to not deliver radiotherapy services regionally.

More than 16,000 people signed a petition in May 2023 calling for the delivery of radiation treatment services in the Limestone Coast.

A dedicated Radiotherapy Working Group have fought tirelessly for this vital service.

Your postcode should not determine your health outcomes. As the Party for the regions, we want to reduce the barriers to health care for regional South Australians.

We will ensure that cancer sufferers in the Limestone Coast can receive the care they need, closer to home.

This is part of our plan for a better health system.
